Home in resort-style enclave

Development in Bandar Sunway comprises residential suites, retail shops and exclusive facilities

GREENFIELD Residence is giving homeowners a shot at resort-style living within the city.

Designed by one of BCI Asia's Top 10 Architects in Singapore, the residential suites in Bandar Sunway provide the comforts of home in a resort-style enclave.

The residential development comprises three towers of urban residential suites, complemented with 18 lifestyle retail shops and 34 exclusive facilities nestled within six thematic landscapes.

Spanning across approximately 2.25ha, the project has a gross development value of RM580mil.

There are 816 residential suites with built-up areas of 581sq ft, 861sq ft and 1,076sq ft.

Priced from RM430,000 onwards, the units are available in 1+1, two and 2+1 bedroom configurations, whereby residents can expect a modern, practical and functional layout.

All units come with a yard and foyer

(except the 581sq ft units) and those above 1,000sq ft come with dual-key concept, suitable for two generations under the same roof.

Large windows in the common areas welcome unblocked city sceneries or pool and garden views into the home, along with improved airflow and natural lighting.

The six thematic landscapes consist of the Aquatic Cove, Green Oasis, Energetic Corridor, Green Belt, Central Green Park and Residential Facilities.

Contained within are facilities such as a 50m infinity pool, sunken sundeck, hot tub, multi-colour Flower Zone, Pink Blossom Trail, a jogging trail that encircles a 0.8ha recreational podium and a floating gym.

The property boasts a harmonious interaction of water, lush greenery and elegant style that blend seamlessly to create exquisite living spaces that reflect form and functionality.

Equipped with multi-tier security features, you can rely on the luxury of safety and have peace of mind the minute you step into the guarded community compound.

Property developer Cicet Asia Development Sdn Bhd managing director Yin Shaoquan said the company wanted to create resort-style living in the city at Greenfield Residence in Bandar Sunway.

"The residential suites provide a welcome refuge after a busy day at work where one can relax and enjoy any of the 34 facilities such as the infinity pool, floating gym or multi-coloured flower zone," he added.

More than 2,000 guests attended the grand launch at Greenfield Residence sales gallery, hosted by celebrity emcee Chui Ling.

Guests were also treated to fun-filled activities and a lion dance performance by dance troupe Kun Seng Keng.

"The launch was very well-received and so far, we have a take-up rate of 75% for Tower

A," he added.

Greenfield Residence is accessible via an extensive network of highways namely, the LDP, Federal Highway, NKVE, NPE and Kesas.

With the new BRT station within walking distance, and KTM and LRT stations within the vicinity, the convenience gives residence easy connection to an established township with amenities such as shopping malls, renowned colleges and universities, hospitals, hotels and even a golf resort.

The property is scheduled to be completed in the first quarter of 2021.

Cicet's portfolio covers over 50 high-end properties including residential and commercial components as well as public infrastructure.

Three show units are open for viewing at Greenfield Residence daily from 10am to 5.30pm.
